

## Norbar HT2/5 1 out, 1/2 in Manual Torque Multipliers 170-1700NM, Output Square: 1", Input Square: 1/2"

- ✘ Multiple stages of epicyclic gearing are used in Norbar's 'HandTorque' multipliers to provide a wide range of torque outputs and ratios to suit most applications. The torque multiplication ratio is always quoted, not the velocity ratio as some competitors' goods claim. For example, a velocity ratio of 29.8:1 would result in a torque multiplication of 25:14%.

Specifications	Details
Plate Weight	2.2 Kg
Velocity Ratio	5.454:1
Input Square	1/2"
Output Square	1"
Multiplication Ratio	5:1
Brand	✘ Norbar
Accuracy	+/-4%
Tool Weight	3 Kg
Product Number	16030
Range Imperial	125 - 1250 lbf·ft
Range Metric	170 - 1700 N·m
Max Input Speed	42 revs/min
Model Number	HT2/5 1" out, 1/2" in
Plate Torque	9 N.m
