

## Kennedy-Pro - 3/8 inch Drive, 18mm Bi-Hexagon Deep Sockets - 12 Points

Bi-Hexagon Sockets 12 point side drive design gives a higher torque than normal sockets, grip worn nuts and will not round off existing nuts. All have a ball-retaining groove on each face of the square drive, which ensures a positive fit with accessories. Require only a one-twelfth turn to engage the next point of the socket.

| Specifications   | Details                     |
