

KROEPLIN H102, 2.5 - 12.5 MM, ANALOG INTERNAL MEASURING GAUGE

Internal caliper gauge use spring-loaded jaws to provide consistent point contact pressure for exceptionally precise hole diameter, groove, and tube thickness comparison measurements. Jaws of various types are available for diverse applications. Caliper gauges are versatile measuring tools that can be used to measure a variety of distances and interior dimensions. IP65 protection prevents dust penetration and protects against temporary water immersion; allows usage in situations with cutting oil, dust, and other contaminants. Measurements can be read from a dial gauge.

Specifications	Details
Weight	155 g
Measuring depth max. L	12 mm
Model Number	H102
Repeatability limit r	0.005 mm
Application	Internal measurement
Range	2.5 - 12.5 mm
Resolution	0.005 mm
Protection	IP65
Display	ANALOG
Measuring Units	Millimetre / Inch
Max. permissible errors G	0.015 mm
Brand	Kroepelin
