

## Mitutoyo 7312S Dial Indicator Thickness Gauge 0-0.5", 0.001", Lens Thickness

This Dial Indicator Thickness Gauge enables you to measure tube wall thickness, film/paper etc. with flat contact points, resp. lens thickness or groove depth. Dial thickness gauges can quickly measure the thickness of thin products such as paper and felt. Integrated moulding of the bezel and crystal ensures protection against water and oil penetration via the front face.

Specifications	Details
Graduation	0.001"
Mass (main unit)	215 g
Contact point	Thread # 4-48UNF
Inch-Metric	Inch
Max. measuring depth	1.2
Indicator No.	2414SB
Parallelism	0.0005
