

Gagemaker FSTD-958L-P2 | LTC Connection (8Round) MRP Setting Standards | Frame Standard - Pin | Connection Size 9â€â€

- ✘ The MRP® crest diameter gauges are preset with frame style setting standards to allow for precise inspection of API threaded connections. These standards are made of a rigid, non-adjustable steel block that has been precisely sized with .0003-inch tolerances. Smaller than 238" round style standards are offered as specials.
