

**DWYER Handheld Digital Manometer | Range  
0 in wc to 20 in wc | 4 Digit LED |  
Intrinsically Safe,**

These digital manometers are designed with components that have low-energy discharge to prevent ignition in hazardous environments with combustible or explosive gas or dust present. They are rated intrinsically safe, operate on low currents, and operate on low voltage. They are frequently used to calibrate pressure gauges, measure air velocity, and check natural gas and HVAC systems.

Specifications	Details
Accuracy	±0.5%
Display	4 Digit LED
Maximum operating temperature	140 °F
Resolution	0.01 in wc
Storage Temperature	-4° to 176°F
Connection Size	1/8 in; 3/16 in
Pressure Range	0 in wc to 20 in wc
