

DRV 3D digital stereo microscope | 8.4" 700x Magnification

Combine the speed and ease of use of a digital microscope with the viewing advantages of a 3D high resolution stereo zoom microscope. Glasses-free viewing, recording, and sharing of 3D stereo images are possible thanks to the amazing DRV display technology. The DRV Stereo CAM can capture and share even the smallest details with efficiency and effectiveness thanks to its 700x magnification.
