

Mitutoyo 2978 Standard One Revolution Dial Indicator Range 0.06", Graduation .001"

A Mitutoyo one-revolution, balanced-dial indicator suited to comparison measurement applications on measuring jigs and similar.

Excellent water- and drip-proof characteristics (IP43).

- Smooth movement thanks to the improved design of bush and stem.
- Application of a hard coating on the surface of the crystal makes it highly resistant to scratching and chemical attack.
