

Mitutoyo 513-425E High Resolution Lever Indicator Range 0.6mm, Graduation 0.002 mm

A versatile anti-magnetic type Mitutoyo lever indicator (or dial test indicator, DTI) suited to alignment operations on machine tools and similar applications. This indicator automatically adapts to the required measuring direction on contact, and the jewelled movement provides lowest friction and stiction for smooth and precise operation. Supplied with a basic set of mounting accessories.
