

LED UVC 275nm
40W

**LED UVC 275nm sterilizer
battery powered**

ST-100

- ▶ **Powerful - 21 pcs LED, 40W output**
- ▶ **Peak wavelength : 275nm**
- ▶ **Killing most kinds of virus and bacteria**
- ▶ **2 years free service guarantee**

Killing virus less than 10 seconds @ 10cm Distance 1 charge: 3 hours operation

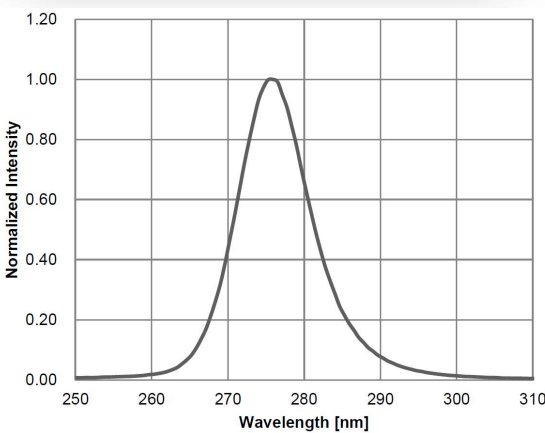

Compares to Mercury lamp

LED	vs	Mercury
✓	Environmental	✗
Not Producing	Produce ozone	Producing, harmful to human
50,000 hours	Life time	1,000 hours
Durable	Breakage rate	Fragile

New Product

Searching for global distributor

- Suit to kill novel coronavirus and influenza virus or any other virus.
- Only need 10seconds - Timer equipped
- Child safety lock
- No Mercury and No ozone

Dimension: 8.6" x 9.4" x 4.3"

Weight: 1.2Kg

Battery: Li battery 29.4Vdc, 2600mAH

LED UV kills germs to death by physics

There are heat-resistant germs("mad cow" virus)
Cold-resistant germs(avian influenza virus, Yell bacteria)
And drug-resistant germs(superbug)
But NO LED UV-resistant germs
